SUSANNA PIQUER-BARRACHINA

+1 217 390 3173 • susannapiquer@gmail.com • linkedin.com/in/susanna-piquer-barrachina • github.com/spiqbar

Education

University of Illinois Urbana-Champaign, Grainger College of Engineering **Expected May 2027**
Exchange Student, Data Science & Computer Engineering

Universitat Politècnica de València **Expected May 2027**
B.S. in Data Science | Highest Academic Honors (Top 1 of class, 4 subjects) GPA: 8.5/10.0 (∼3.5/4.0 U.S.)

Relevant Coursework: Machine Learning, Databases & Data Management, Infrastructure for Data Processing, Model Evaluation & Deployment, Continuous Modeling & Simulation

Skills

Programming: Python, SQL, R, Go, Java

AI & ML: PyTorch, Scikit-Learn, Deep Learning, NLP, Time Series

Data Infrastructure: ETL Pipelines, Relational/NoSQL Databases, AWS, Docker

Other: Agile Methodology, Spanish (Native), English (C1, TOEFL)

Experience

Sherpas Wealth Technology | *AI Engineer* **Jun – Aug 2026**

- Shipped LLM-based reasoning pipelines now running in production
- Rewrote core backend services in Go, replacing legacy Python stack under live traffic
- Maintained ETL pipelines turning raw financial data into advisor-facing insights

Octocypher Seguridad Informática S.L. | *CEO & Co-Founder* **Mar 2025 – May 2026**

- Grew cybersecurity startup from technical concept to legally incorporated company
- Won 1st place and EUR 5,000 pitching to investors at Valencia Digital Summit

Relevant Projects

Financial Regime Detection via Anomalous Diffusion | *Deep Learning, PyTorch* **Feb – May 2026**

- Built AnDiMultiTaskChangepointNet, Conv1D-BiLSTM network with Bayesian uncertainty layer
- Localized changepoints to within 16.85-day RMSE, deployed as interactive dashboard

CAS-Net: Multimodal Sexism Detection (EXIST 2026) | *Deep Learning, NLP* **Mar – May 2026**

- Assembled CAS-Net, context-aware network fusing text (XLM-RoBERTa), image (CLIP), and physiological signals
- Designed gated fusion layer boosting F1-Macro by up to 15%, reaching 0.7102 on test set
- Benchmarked model performance and stability across 3-fold cross-validation setup

CDTM Honors Program Initiatives | *Data Strategy, Event Coordination* **Jan – Aug 2026**

- Advised Improven on data strategy project for corporate client, applying Agile methods
- Ran healthcare technology trend seminar with IMED Hospitales for executive board members
- Co-organized CDTM Tech Leaders Summit, invite-only event for 70 founders, corporates, and investors

Clinical Disease Predictive Model | *Machine Learning* **Feb – Jun 2025**

- Fit Random Forest classifier on noisy, imbalanced clinical data, reaching 0.58 Average Precision

Leadership & Extracurricular Experience

Former Treasurer & Board Member, ACM UPV Chapter **Sep 2024 – Jan 2026**

- Managed chapter budget and helped organize events for student branch

Environmental Volunteer, SEEDS Iceland (Trash Hunting Program) **Jul 2024**

- Cleaned coastal and wilderness sites across Iceland as part of international volunteer team
